Subject: SSC 70F (SAFETY RECALL) - TOYOTA CAMRY ALL WEATHER FLOOR MAT ACCESSORY FOR 2007 AND EARLY 2008 MODEL YEAR VEHICLES.

Hello Everyone,

On September 26, 2007, Toyota filed a Defect Information Report (DIR) with the National Highway Traffic Safety Administration (NHTSA) regarding the optional Toyota Camry All Weather Floor Mat (floor mats constructed from heavy duty rubber) specifically engineered and manufactured for 2007 and early 2008 model year Camry vehicles. In recent months, Toyota has received reports regarding the Toyota Camry All Weather Floor Mat accessory slipping forward and interfering with the movement of the accelerator pedal. Toyota has investigated these reports and determined that if the optional Toyota Camry All Weather Floor Mat (either by itself or if placed on top of an existing carpeted floor mat) is not secured by the retaining hooks (clips) and the mat moves forward, it may interfere with the accelerator pedal returning to the idle position. If the mat is properly secured, it will not interfere with the accelerator pedal.

To inform dealership associates of this issue, a dealer package will be mailed to dealers in late September 2007.  
For additional information please reference the following Dealer Daily message attached below.
